### DP Business Events

DP Business Events have been successfully organising forums for over 15 years and are seen as the market leaders within the Healthcare and Hospitality sectors. Our forums have been developed on the basis that it is of the utmost importance that Buyers and Suppliers get quality introductions and time to build strong business relationships. We have developed a highly successful format that effectively brings together senior Buyers and Suppliers through a schedule of one to one meetings and targeted networking sessions. Our forums provide high level business opportunities and are attended by companies ranging from SME's to leading global brands. £Billions of business transactions have been successfully completed by companies as a direct result of them attending our forums.

Our dedicated team have an in depth knowledge of the sectors we work within. So successful are our forums that over 90% of all who attend agree that the forums provide the most direct and cost effective route to meeting new business partners.
